

## Monthly Sales Revenue and Sales Volumes for the period ending November 30, 2015

**December 16, 2015** - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCQB; IBH.V: TSXV), a manufacturer of proprietary fire-resistant building materials has released monthly revenue and sales volumes results for the period ending November 30, 2015. Overall sales revenue generated for the month of November increased 12% to \$715,065 from \$639,382 in November 2014. Sales revenue into the Residential Roof Deck/Wall Assembly/Structural Insulated Panel Market increased 21% and revenues into the Commercial Modular Market increased 5%.

Total sales volume, as measured by square footage of shipment to all markets for the month of November 2015, was 13% higher than shipments in November 2014. Shipments into the Residential Roof Deck/Wall Assembly/Structural Insulated Panel markets grew 20%, year over year, while shipments into the Commercial Modular Market remained consistent in the comparable periods.

Mild weather has contributed to a stronger than normal late fall/early winter construction period. Barrier's order file has grown significantly and expectations are for sustained demand strength. In response to demand, Barrier is taking steps to increase manufacturing throughput by increasing second shift production capacity.

### **About International Barrier Technology Inc.**

International Barrier Technology Inc. (OTCQB: IBTGF; TSXV: IBH.V) develops, manufactures, and markets proprietary fire-resistant building materials branded as LP<sup>®</sup> FlameBlock<sup>®</sup> Fire-Rated OSB Sheathing and Mule-Hide FR Deck Panel. Barrier's award-winning fire-resistant wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Barrier's family of products provides customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction.
