

INTERNATIONAL BARRIER TECHNOLOGY INC.
QUARTERLY REPORT
for the period ended December 31, 2010

Management Discussion & Analysis

Date of Report – February 14, 2011

Description of Business

International Barrier Technology Inc. (Barrier) manufactures and sells fire-rated building materials. Barrier's primary business is in the United States but through distribution partnerships is endeavoring to enter building products markets in Australia, Europe, and South America. Barrier has a patented fire resistive material (Pyrotite®) and manufacturing process that is applied to building materials to greatly improve their respective fire resistant properties. Many of the top multifamily and wood frame commercial builders in the United States utilize Barrier's fire-rated structural panels in areas where the building code requires the use of a fire-rated building panel.

Barrier manufactures a private label fire rated sheathing product under contract for both LP® Building Products, Inc. (LP) and MuleHide Products, Inc. (MuleHide). LP has introduced a fire rated OSB trademarked LP® FlameBlock® Fire-Rated OSB Sheathing (LP® FlameBlock®) and MuleHide has been selling MuleHide FR Deck Panel (FR Deck Panel) to commercial modular building manufacturers since 2004.

Discussion of Operations

Barrier's financial statements are filed with both the SEC (USA) and SEDAR (Canada) and are disclosed in US dollars utilizing US generally accepted accounting principles. Barrier's filings with the SEC consist of quarterly reviewed financial statements on Form 10-Q and annual audited financial statements on Form 10-K. Barrier continues to file the above financial statements with SEDAR in Canada.

Sales revenue reported for the quarter ending December 31, 2010 was up 11% to \$877,224 for the three month period in comparison to \$790,773 generated in the same quarter in 2009. Year-to-date sales increased 28% to \$1,756,493 vs. \$1,372,253. Total sales volume, as measured by surface volume of product shipped, was 1,754,100 sq. ft. This is a 31% increase from the 1,342,700 sq. ft. shipped during the same quarter in the previous year. Sales for the six months ending December 31, 2010 (fiscal year-to-date) are up substantially 57% to 3,528,200 sq. ft. vs. 2,245,700 sq. ft. in the same period in 2009.

Sales into the Residential Roof Deck, Wall Assembly, and Structural Insulated Panel Market Sectors (LP FlameBlock) increased 195% during the quarter. Shipments into the Commercial Modular Market (FR Deck Panel) increased 28% in comparison to the same period in 2010.

On January 18, 2011, LP and Barrier extended the existing Supply Agreement through December 31, 2013. LP is the largest producer of Oriented Strand Board (OSB) in the world and believes that Barrier's Pyrotite Technology helps them achieve their strategy of providing a number of value added OSB products to the building community. The agreement gives LP the exclusive right to sell Pyrotite® treated panel products in North America under their brand name LP® FlameBlock® Fire-Rated OSB Sheathing.

Barrier anticipates the relationship with LP may significantly increase sales volume. Reported sales revenue for LP products, however, will only include the charges for treatment services, not the underlying OSB substrate which will be provided by LP. Prior to the LP agreement, Barrier purchased OSB from local distributors and included that pass through cost in financial statements. Barrier's margin for LP FlameBlock will be based on the treatment of the OSB only.

Gross profit for the quarter was \$59,204 vs. \$94,247 in the previous year (year-to-date \$142,852 vs. 126,015 in 2009). The gross margin, as a percentage of sales revenue was 7% in comparison to 12% in the prior year (year-to-date 8% vs. 9%). Barrier is focused on improving gross margins through the current fiscal Q3 and beyond. Manufacturing efficiencies are expected to be gained from increased sales volume and the ability to spread overhead across a larger manufacturing/sales volume base.

Cost of sales in the three and six month periods ending December 31, 2010 increased to \$818,020 and \$1,613,641 from \$696,526 and \$1,246,238 in the previous year. The increase is attributable to higher production volumes. Gains in efficiency are reflected in the decreased quarterly and year-to-date average cost per sq.ft. of production (\$0.47 vs. \$0.52 quarterly and \$0.46 vs. to \$0.55 year-to-date) in the comparable period.

R&D expenses and activity has generally been limited to those areas allowing LP to introduce LP[®] FlameBlock[®] into targeted markets such as the Wildland Urban Interface (WUI) zoned properties in California and for fire rated wall assemblies in wood framed commercial buildings. Barrier's International Code Council Evaluations Services Report (ICC-ES 1365) has been updated and it now includes LP Building Products, Inc. as an "additional listee". This allows LP to sell their LP[®] FlameBlock[®] product in any application originally certified for Blazeguard[®], Barrier's original fire rated sheathing product.

Depreciation on plant and equipment is included in cost of sales category. Depreciation, which has non-cash impact on Barrier's actual cash flow, increased slightly year-to-date from \$127,766 in 2009 to \$133,632. The expense reflects scheduled depreciation of the new manufacturing line equipment and building expansion. Amortization, another non-cash category of reporting, of the worldwide Pyrotite technology (including patents, technical know-how, and trademarks) began when Barrier purchased it in 2004 and will continue at existing rates until it is fully depreciated.

Administrative expenses in the reported three and six month period decreased from \$195,735 and \$423,038, respectively to \$88,428 and \$341,518. Administrative costs per sq. ft. decreased both quarterly (from \$0.15 to \$0.05) and year-to-date (from \$0.19 to \$0.10). While changes in derivative value (see Note 6) affected administrative costs significantly in this reporting period, Barrier continues to focus on how increased sales volume will help reduce admin cost per square foot shipped. As volumes continue to increase, a continued trend for overall reduction in the average cost of administrative expense per sq.ft. will be manifest. Barrier expects the reduction in the average cost of administration to have a significant impact on bottom line performance in future reporting periods.

Accounting and Audit Fees increased in the quarter ending December 31, 2010 vs. the same time period last year (\$24,333 vs. \$10,775) and year-to-date (\$56,634 vs. \$51,351).

Insurance costs have increased to \$22,754 for the three months and \$49,817 for six months in comparison to \$15,082 and \$37,229 the previous year. The difference is due annually adjusted premiums based on larger sales volume.

Legal fees increased to \$22,841 for the three month period and \$32,867 for the six months ending December 31, 2010. For the same period in the prior year, legal fees were \$11,110 and \$19,028 respectively. Legal fees were expended on activities in support of protecting Pyrotite® patents and trademark registration as well as for help in the drafting and review of certain business correspondence. Barrier believes protecting its technology and trademarks is an important step in positioning itself to develop strategic partners and potential technology licensees

Sales, marketing, and investor relations expenses increased from \$4,888 to \$41,840 during the quarter and from \$7,799 to \$114,735 year-to-date. The major reason for the increase in expense under this category was an enhanced effort placed on investor relations. Barrier contracted with an external investor relations and media firm, The Investor Relations Group “IRG,” from July through November 30, 2010. The partnership fit into a strategy of increasing investor awareness of Barrier’s improving business to the investment community. Barrier plans to continue to support investor relations and public relations and has contracted with an investor relations professional to perform that function, for the time being, on a full-time basis.

The relationship with LP will actually help Barrier improve sales without having to expend inordinate amounts of cost. Barrier services the marketplace through two portals, LP and MuleHide Products, and these companies both have existing in-house sales forces that will continue to support an expansion in sales volume with Barrier’s assistance.

Loss Before Other items of (\$29,224) is being reported for the quarter ending December 31, 2010, whereas in the same period in 2009, a loss of (\$101,488) was reported. A loss of (\$198,666) is reported for the year-to-date period vs. (\$297,023) in the comparable year-to-date period in 2009.

Barrier anticipated losses early in the LP relationship. LP and Barrier targeted a market based price that is more competitive to past product pricing and at a level that will support improved market share. As sales increase, gross margins and profits are expected to improve.

Other items include income and costs not directly related to business operations. Other income items reported during the quarterly period herein includes a foreign exchange gain and interest income of \$18,709. To compare, for the same reporting period last year there was a foreign exchange/interest income loss of (\$508). Year-to-date the foreign exchange/interest income gain was \$33,183 vs. \$11,442 in the prior year.

Interest on Long Term Debt has decreased from \$22,185 to \$12,566 for the quarterly reporting period and decreased from \$44,240 to \$27,326 year-to-date as overall long-term debt continues to decrease.

In March, 2010, Barrier issued, and sold in a private placement, 15 million shares of stock at the price of \$0.10 CDN per share. In addition, the purchasers of the shares were awarded the right to buy an additional share (warrant) at \$0.15 CDN. As well, Barrier granted options that were exercisable in Canadian currency whereas the functional currency of the company is the US dollar. As a result of these transactions, Barrier is required to record these instruments as derivative liabilities which are re-measured to their fair value each reporting period. During the six months ended December 31, 2010, the Company reported a fair value gain of \$831,000 for the quarter and \$1,047,000 year-to-date on the derivative liability.

Net Income. A net income of \$807,919 is being reported for the quarter ending December 31, 2010, whereas in the same period in 2009, a net loss of (\$124,181) was reported. For the six months ending December 31, 2010, the net income is \$854,191 vs. a net loss of (\$329,821) in the prior year. Barrier remains focused on cutting costs and improving efficiencies wherever it can. This includes operating the manufacturing line with maximum efficiency, as the economy remains unsettled and residential construction slowly begins to recover. Keeping a vigilant handle on costs will help keep operational costs as low as possible and enable recovery to occur sooner and at lower volumes than previously possible.

Summary of Quarterly Results. The following is a summary of the Company's financial results for the nine most recently completed quarters:

	Dec 31 2010	Sept 30 2010	June 30 2010	Mar 31 2010	Dec 31 2009	Sept 30 2009	Jun 30 2009	Mar 31 2009	Dec 31 2008
Volume shipped (MSF)	1,754	1,774	1,496	1,261	1,343	903	1,011	1,085	1,578
Total Revenues (000)	\$877	\$879	\$574	\$660	\$791	\$581	\$618	\$764	\$1,123
Operating Income (000)	(\$30)	(\$169)	(\$370)	(\$652)	(\$101)	(\$195)	(\$277)	(\$211)	(\$94)
Net income (loss) (000)	\$808	\$46	(\$117)	(\$1,883)	(\$124)	(\$206)	(\$346)	(\$215)	(\$164)
EPS (Loss) Per Share	\$0.02	\$0.00	(\$0.00)	(\$0.06)	(\$0.00)	(\$0.01)	(\$0.00)	(\$0.01)	(\$0.01)

Selected Annual Information

The following financial data is for the three most recent years ended June 30:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Total Revenue	\$2,606.3	\$4,092.0	\$4,878.0
Net income (loss)	(2,330.0)	(719.0)	(808.0)
Per share	(0.07)	(0.02)	(0.03)
Per share, fully diluted	(0.07)	(0.02)	(0.03)
Total assets	5,002.0	4,849.0	5,738.0
Total long-term financial liabilities	774.0	1,205.0	1,145.0
Cash dividends declared per share	Nil	Nil	Nil

New product and market development

New product and market development activities have been curtailed over the past year as a result of reduced sales volume. Barrier anticipates that as the economy improves and strategic partnerships develop, an increase in this activity will transpire.

New product and market development activity during this period has generally been limited to those areas which will allow LP to introduce LP[®] FlameBlock[®] into targeted markets such as the Wildland Urban Interface (WUI) zoned properties in California and for fire rated wall assemblies in wood framed commercial buildings. Barrier's International Code Council Evaluations Services Report (ICC-ES 1365) has been updated and it now includes LP Building Products, Inc. as an "additional listee". This allows LP to sell their LP[®] FlameBlock[®] product in any application originally certified for Blazeguard[®], Barrier's original fire rated sheathing product.

Global licensing opportunities

Barrier has begun exploring opportunities for both Pyrotite technology licensing and distribution of US manufactured products as a part of the LP[®] Building Products agreement. LP is active internationally and has offered to potentially extend their influence in Europe, Australia, and

South America if the opportunity seems mutually beneficial. In addition, Barrier continues to explore the opportunity for developing fire resistive panels for the emerging Structural Insulated Panel (SIP) market in Australia with an American company currently doing SIP business there. More information will be presented on these opportunities in subsequent reports as it develops.

Financial position & financings

Barrier ended the period with a working capital deficiency of (\$1,023,073). The Company generated negative operating cash flow for the six months ended December 31, 2010 of (\$124,213) in comparison to (\$31,466) for the six months ended December 31, 2009. The net cash outflow from operating activities for the current fiscal period ended was primarily a result of a net income of \$854,191, the non-cash items (stock-based compensation of (\$206,395) and amortization of \$196,440), and an increase in inventory of \$37,578. The Company expects to fund short-term cash needs out of current operations and supplement other short-term needs with the funds raised in the recent private placement that was successfully completed to pay down debt and generate extra working capital.

Financing activities resulted in net cash outflow of (\$282,461) in the current period compared to a net cash outflow of (\$57,632) for the same period last year. The cash outflow resulted from repayments on long-term debt (including repayment of the line of credit to a zero balance) and obligations under capital lease.

There is no assurance that we will operate profitably or will generate positive cash flow in the future. In addition, our operating results in the future may be subject to significant fluctuations due to many factors not within our control, such as the unpredictability of when customers will order products, the size of customers' orders, the demand for our products, the level of competition or general economic conditions.

Although management believes that revenues will increase, management also expects an increase in operating costs. Consequently, the Company expects to incur operating losses and negative cash flow until our products gain market acceptance sufficient to generate a commercially viable and sustainable level of sales, and/or additional products are developed and commercially released and sales of such products made so that we are operating in a profitable manner.

Current and Future Financing Needs

Having undertaken an equity financing during the year ended June 30, 2010, management of the Company believes it has sufficient cash to operate its business for the fiscal year ended June 30, 2011. At December 31, 2010, the current cash and cash equivalents totaled \$420,345 and there were \$220,631 available funds to draw on the revolving credit facility. There is \$250,000 available on the revolving bank facility. The Company bases its estimate of future cash requirements on assumptions that may prove to be wrong and the requirements for cash are subject to factors, some of which are not within the control of the Company, including:

- Increased costs of general and administrative expenses
- Increased costs of raw materials and freight
- Costs associated with the research and development activities
- Costs associated with maintaining property, plant and equipment and intellectual property

Related Party Transactions

During the six months ended December 31, 2010 the Company incurred wages and management fees of \$101,117 with directors of the Company and companies with common directors. The Company paid \$81,257 in wages and management fees for the same prior year-to-date.

Capitalization

Authorized: 100,000,000 common shares without par value.

Issued as of December 31, 2010: 44,414,926 common shares at \$15,457,697

Issued as of February 8, 2011: 44,414,926 common shares at \$15,457,697

Options outstanding:

The following summarizes information about the stock options outstanding at December 31, 2010:

Number	Exercise Price	Expiry Date
40,000	\$0.09	March 7, 2011
3,640,000	\$0.12 CDN	March 18, 2012
350,000	\$0.15CDN	October 29, 2012
<u>4,030,000</u>		

At December 31, 2010, the following share purchase warrants were outstanding entitling the holder to purchase one common share for each warrant held as follows:

Number	Exercise Price	Expiry Date
<u>15,000,000</u>	\$0.15 CDN	March 18, 2012
<u>15,000,000</u>		

Critical Accounting Estimates

Stock-based Compensation Charge and Expense

As described in Note 2 to the audited annual financial statements, the Company accounts for all stock-based payments and awards under the fair value based method. This fair value of the stock options is estimated at the date of the stock options are granted using the Black-Scholes option-pricing model. Stock-based payments to non-employees are periodically re-measured until counter-party performance is complete and any change is recognized over the life of the award. The Company accounts for share purchase options to employees by recording the fair value of the awards on the grant date and the related stock-based compensation expense is recognized over the period in which the options vest. In addition, this is a non-cash compensation charge and the cash flow effects are realized only at the time of exercise.

Derivative Liability

Management evaluates the equity instruments it issues to determine whether they are required to be accounted for as liabilities. When they are determined to be recorded as derivative liabilities, they are marked-to-market each reporting period.

The Company uses the Black-Scholes option pricing model to calculate the fair value of the derivative liabilities at each reporting period. The Black Scholes pricing model requires the input of highly subjective assumptions, including the expected price volatility. Changes in assumptions can materially affect the fair value estimate and therefore the Black-Scholes model does not necessarily provide a reliable single measure of the fair value of our derivative liability

Other Matters

As at December 31, 2010 the Company did not have any off-balance sheet arrangements to report.

On January 18, 2011, Barrier and LP[®] Building Products (LP) extended their exclusive Supply Agreement where Barrier has agreed to provide exclusive fire treatment services for LP on their oriented strand board panel product (OSB) through December 31, 2013. LP is the largest producer of OSB in the world. LP will market and sell the fire treated OSB in North America under their own trade name LP[®] FlameBlock[®] Fire-Rated OSB Sheathing. Barrier has agreed not to market or sell Pyrotite[®] technology coated wood products under the registered trademark Blazeguard[®] for as long as the agreement is in place. Barrier will provide technical support. Barrier will continue to supply MuleHide FR Deck Panel to MuleHide Products, Inc. under the existing Supply Agreement executed between Barrier and MuleHide in 2004.

LP studied available fire retardant technology for OSB for some time and after an exhaustive review of available technologies, selected Pyrotite[®], Barrier's proprietary and patent protected technology. The Barrier/LP partnership is particularly powerful in that it links the raw manufacturing of the OSB substrate with the company that actually mixes and produces the fire retardant slurry. Barrier and LP believe that not only will LP[®] FlameBlock[®] be recognized as the premier fire rated sheathing in the marketplace; it will be priced competitively to alternative products. LP has a strong sales and distribution network all over North America and will be able to leverage this substantial support network in a way that Barrier was never able to do successfully with its relatively small size.

More descriptive details relating to the long-term relationship of LP and Barrier will be reported as they are developed. Presently, however, Barrier and LP agree that moving quickly to establish both a customer base of support and recognition of the product in the builder community is the number one priority. Establishing market share now, while the overall building market is slow, will enable LP[®] FlameBlock[®] sales to grow exponentially as the economy improves.

LP's number one market development priority will be roof and exterior wall applications in the wildfire prone areas of California. LP[®] FlameBlock[®]'s inherent attributes of strength enhancement coupled with superior fire protection will help position it as the premier choice for residential and commercial wood framed construction because along the west coast designing for both fire and earthquake protection is required.

SEE ACCOMPANYING NOTES

INTERNATIONAL BARRIER TECHNOLOGY INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2010
(Stated in US Dollars)
(Unaudited)

Note 1 Nature of Operations and Ability to Continue as a Going Concern

The Company develops, manufactures and markets proprietary fire resistant building materials branded as Blazeguard in the United States of America and, as well, the Company owns the exclusive U.S. and international rights to the Pyrotite® fire retardant technology.

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") on a going concern basis, which assumes that the Company will continue to realize its assets and discharge its obligations and commitments in the normal course of operations. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At December 31, 2010 the Company had an accumulated deficit of \$14,402,355 (June 30, 2010 - \$15,256,546) since its inception and expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has no formal plan in place to address this concern but considers obtaining additional funds by equity financing and/or from bank financing. While the Company is expending its best efforts to achieve the above plans, there is no assurance that any such activity will generate funds for operations.

The Company was incorporated under the British Columbia Company Act and is publicly traded on the TSX Venture Exchange in Canada ("TSX-V") and the OTC Bulletin Board in the United States of America.

These statements reflect all adjustments, consisting of normal recurring adjustments, which in the opinion of management are necessary for fair presentation of the information contained therein. It is suggested that these interim consolidated financial statements be read in conjunction with the audited consolidated financial statements of the Company for the year ended June 30, 2010. The interim results are not necessarily indicative of the operating results expected for the full fiscal year ending on June 30, 2011. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures herein are adequate to make the information presented not misleading.

Note 2 Significant Accounting Policies

Fair Value Measurements

The book value of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, bank loan facility, long-term debt and obligation under capital leases approximate their fair values. The fair value hierarchy under GAAP is based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value which are the following:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - observable inputs other than Level 1, quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, and model-derived prices whose inputs are observable or whose significant value drivers are observable; and
- Level 3 - assets and liabilities whose significant value drivers are unobservable by little or no market activity and that are significant to the fair value of the assets or liabilities.

As at December 31, 2010, the Company's Level 3 liabilities consisted of the warrants issued in connection with the Company's offering of equity units in a private placement and share purchase options granted to non-employees. The resulting Level 3 liabilities have no active market and are required to be measured at their fair value each reporting period based on information that is unobservable. A summary of the Company's Level 3 liabilities for the six months ended December 31, 2010 and the 12 months ended June 30, 2010 is as follows:

	Beginning Fair Value of Level 3 Liabilities	Issuance of Level 3 liabilities	Transfers to Level 3 liabilities	Change in fair value of Level 3 liabilities included in earnings	Ending Fair Value of Level 3 Liabilities
For the six months ended December 31, 2010	\$ 2,050,600	\$ 10,745	\$ 6,626	\$ (1,076,671)	\$ 991,300
For the 12 months ended June 30, 2010	\$ -	\$ 1,083,000	\$ 31,900	\$ 935,700	\$ 2,050,600

Recent Accounting Pronouncements Not Yet Adopted

In April 2010, the FASB issued ASU No. 2010-13, "*Compensation – Stock Compensation*," or ASU 2010-13, which amends ASC Topic 718 to address the classification of an employee share-based payment award with an exercise price denominated in a currency of a market in which the underlying security trades. Specifically, an employee share-based payment award denominated in a currency of a market in which a substantial portion of the entity's equity securities trades should not be considered to contain a condition that is not a market, performance or service condition and therefore would not classify the award as a liability if it otherwise qualifies as equity. This update is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. The Company is currently evaluating the effect of ASU 2010-13 will have on its financial statements.

Note 3 Inventory

	December 31 <u>2010</u>	June 30 <u>2010</u>
Raw materials	\$ 133,763	\$ 179,105
Finished goods	<u>84,489</u>	<u>76,725</u>
	<u>\$ 218,252</u>	<u>\$ 255,830</u>

Note 4 Warrant Liability

During the year ended June 30, 2010, the Company sold 15,000,000 units at \$ 0.10 CDN per unit for total proceeds of \$1,482,974 (\$1,500,000 CDN). Each unit consisted of one common share and one common share purchase warrant entitling the holder to purchase an additional common share at \$CDN 0.15 for a period of two years. Upon the adoption of the guidance in ASC 815-40-15 which became effective for the fiscal year that commenced July 1, 2009, the Company recorded the warrants issued as derivative liabilities due to their exercise price being denominated in a currency other than the Company's US dollar functional currency.

The warrant liability is accounted for at its respective fair values as follows:

	<u>2010</u>	<u>2009</u>
Fair value of warrant liability, June 30, 2010	\$ 2,010,000	\$ -
Change in fair value of warrant liability for the period	<u>(1,047,000)</u>	<u>-</u>
Fair value of warrant liability at December 31, 2010	<u>\$ 963,000</u>	<u>\$ -</u>

The Company used the Black-Scholes model to estimate the fair value of the warrants with the following assumptions:

	<u>At December 31, 2010</u>	<u>At June 30, 2010</u>
Expected life (years)	1.21	1.72
Risk-free interest rate	0.29%	0.32%
Expected volatility	146.81%	145.84%
Expected dividend yield	0.0%	0.0%

The warrant liability will be re-valued at the end of each reporting period with the change in fair value of the derivative liability recorded as a gain or loss in the Company's Consolidated Statements of Operations. The fair value of the warrants will continue to be classified as a liability until such time as they are exercised, expire or there is an amendment to the respective agreements that renders these financial instruments to be no longer classified as a liability.

Note 5 Long-term debt

	December 31 <u>2010</u>	June 30 <u>2010</u>
Revolving bank loan facility in the amount of \$250,000 bearing interest at 6.75% per annum and secured by a security interest in inventory, accounts receivable, equipment and all intangibles of the Company as well as an assignment of the building lease. The balance is due on September 1, 2011.	\$ 29,369	\$ 250,000
Term bank loan facility in the amount of \$500,000 bearing interest at 7% annum and secured by a second charge over the real estate. The facility is being amortized over 7 years with fixed monthly blended payments of principal and interest totalling \$7,550 and has a balloon payment due July 1, 2012.	<u>270,646</u>	<u>305,585</u>
	300,015	555,585
Less: current portion	<u>(103,167)</u>	<u>(71,225)</u>
	<u>\$ 196,848</u>	<u>\$ 484,360</u>

Principal payments of long-term debt are due as follows:

2011	\$ 103,167
2012	<u>196,848</u>
	<u>\$ 300,015</u>

Note 6 Common Stock

Escrow:

At December 31, 2010, there are 48,922 (June 30, 2010 – 48,922) shares are held in escrow by the Company's transfer agent. These shares are issuable in accordance with a time release clause in the escrow share agreement. As at December 31, 2010 and June 30, 2010, all of the shares held in escrow are issuable but the Company has yet to request their release.

Commitments:

Stock-based Compensation Plan

At December 31, 2010, the Company has outstanding options that were granted to directors, officers and consultants the option to purchase 4,030,000 common shares of the Company.

A summary of the status of company's stock option plan for the six months ended December 31, 2010 is presented below:

	<u>Number of Shares</u>	<u>Weighted Average Exercise Price</u>	<u>Aggregate Intrinsic Value</u>
Outstanding, June 30, 2010	4,330,000	\$0.12	\$293,553
Granted	350,000	\$0.15	-
Expired	(250,000)	\$0.55	-
Forfeited	<u>(400,000)</u>	\$0.15	-
Outstanding, December 31, 2010	<u>4,030,000</u>	<u>\$0.12</u>	\$1,200
Exercisable, December 31, 2010	<u>4,030,000</u>	<u>\$0.12</u>	
Exercisable, June 30, 2010	<u>3,920,000</u>	<u>\$0.14</u>	

The following summarizes information about the stock options outstanding at December 31, 2010:

<u>Number</u>	<u>Exercise Price</u>	<u>Expiry Date</u>
40,000	\$0.09	March 7, 2011
3,640,000	\$0.12CDN	March 18, 2012
<u>350,000</u>	\$0.15CDN	October 29, 2012
<u>4,030,000</u>		

Note 6 Common Stock – (cont'd)

Commitments: – (cont'd)

Stock-based Compensation Plan – (cont'd)

Non-Employee Share Purchase Options

In accordance with the guidance of ASC 815-40-15, stock options granted to non-employees with exercise prices that are not denominated in the functional currency of the Company are determined not to be indexed to the Company's stock and are required to be accounted for as derivative liabilities in accordance with ASC 815 "Derivatives and Hedging".

The non-employee share purchase option liabilities are accounted for at their respective fair values and are summarized as follows:

	<u>2010</u>
Fair value of non-employee options, June 30, 2010	\$ 40,600
Fair value of options granted, at issuance	10,745
Reclassification of cancelled non-employee stock options to additional paid-in capital	(20,405)
Change in fair value of non-employee options for the period	<u>(2,640)</u>
Fair value of non-employee options at December 31, 2010	\$ <u>28,300</u>

The non-employee options are required to be re-valued with the change in fair value of the liability recorded as a gain or loss on the change of fair value of derivative liability and included in other items in the Company's Consolidated Statements of Operations at the end of each reporting period. The fair value of the options will continue to be classified as a liability until such time as they are exercised, expire or there is an amendment to the respective agreements that renders these financial instruments to be no longer classified as a liability.

Employee Share Purchase Options

Share options granted to employees that are exercisable in Canadian dollars are accounted for as liabilities because these option awards contain a condition that is other than a market, performance or service condition.

The share purchase option liabilities are accounted for at their respective fair values and are summarized as follows:

	<u>2010</u>
Fair value of option liabilities, June 30, 2010	\$ 469,000
Fair value of options granted, at issuance	26,862
Change in fair value of employee options for the period	<u>(241,362)</u>
Fair value of option liabilities at December 31, 2010	\$ <u>254,500</u>

Note 6 Common Stock – (cont'd)

Commitments: – (cont'd)

Stock-based Compensation Plan – (cont'd)

Stock based compensation amounts for the vesting of stock options and the change in fair value of stock options classified as derivative liabilities are classified in the Company's Statement of Operations as follows:

	Three months ended December 31,		Six months ended December 31,	
	<u>2010</u>	<u>2009</u>	<u>2010</u>	<u>2009</u>
Wages and management fees	\$ (198,400)	\$ -	\$ (234,800)	\$ -
Investor relations	<u>1,374</u>	<u>-</u>	<u>28,405</u>	<u>-</u>
	<u>\$ (197,026)</u>	<u>\$ -</u>	<u>\$ 206,395</u>	<u>\$ -</u>

Note 7 Related Party Transactions

The Company was charged the following by directors of the Company or private companies with common directors during the six months ended December 31, 2010 and 2009:

	Three months ended December 31,		Six months ended December 31,	
	<u>2010</u>	<u>2009</u>	<u>2010</u>	<u>2009</u>
Wages and management fees	<u>\$ 56,309</u>	<u>\$ 35,000</u>	<u>\$ 101,117</u>	<u>\$ 81,257</u>

Note 8 Segmented Information and Sales Concentration

The Company operates in one industry segment being the manufacturing and marketing of fire resistant building materials. Substantially all of the Company's revenues and long-term assets are located in the United States.

During the six months ended December 31, 2010, two customers accounted for 99% (each representing 80% and 19%, respectively) (2009: one customer, 79%) of sales revenue. The amounts receivable from each of these customers at December 31, 2010 were \$281 and \$26,218 respectively (2009: \$1,875). The loss of any of these customers or the curtailment of purchases by such customers could have a material adverse effect on the Company's financial condition and results of operations.

Note 9 Comparative Figures

Some comparative figures have been reclassified to conform with the current years presentation.

EXHIBIT 31.1

**Certification of Chief Executive Officer
Pursuant to Section 302 (a) of the US Sarbanes-Oxley Act of 2002**

I, Michael Huddy, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of International Barrier Technology Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Directors:
 - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
