Fiscal year revenue generated from Residential Roof Deck/Wall Assembly/Structural Insulated Panel markets rose 54% and revenue from the Commercial Modular market inclined 7%.

"Barrier is pleased by our overall improvement in sales volume as measured by both product shipped and revenue," reports Dr. Michael Huddy, Barrier CEO and Director. "The majority of our increases in year to year business occurred in the final six months of the fiscal year ending June 30, 2013. We expect to see continued growth over the next six months as fire-rated wall assemblies utilizing our proprietary technology gain increasing attention and acceptance within the building community."

About International Barrier Technology Inc.

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire-resistant building materials branded as LP[®] FlameBlock[®] Fire-Rated OSB Sheathing and Mule-Hide FR Deck Panel. Barrier's award-winning fire-resistant wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Barrier's family of products provides customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction.
