***International Barrier Technology - Fire Resistant Building Materials  
Company Releases New Internet Website***

**Watkins, MN; Vancouver, BC July 18, 2006** - International Barrier Technology Inc. ("Barrier") (IBTGF: OTCBB; IBH: TSXV), a manufacturer of proprietary fire resistant building materials, is pleased to report the release of a revised internet website: *International Barrier Technology, Protecting People and Property From Fire.* The website may be found at: [www.intlbarrier.com](http://www.intlbarrier.com).

"The website has been designed to allow for convenient access to important information regarding our award winning products and recent business developments" reports Melissa McElwee, Barrier's Manager of Corporate Communications and Investor Relations. "Those interested in finding current information about utilizing Blazeguard products, investing in the publicly traded company, or global licensing opportunities, will find use of the website to be informative and useful". Navigation through the website facilitates the ability to: learn about Barrier's investment and licensing opportunities; view a demonstration of Blazeguard's fire resistive properties; gain access to Product Data Sheets; and, contact Barrier's Customer Service Department to request additional information and literature.

A history of the company, its leaders, and a timeline of milestones is provided. In addition, links to independent research analysis, current stock price, and news, allows interested readers the ability to view information on the opportunities Barrier presents for the future.

**About International Barrier Technology Inc.**

International Barrier Technology Inc. (OTCBB: IBTGF; TSXV: IBH) develops, manufactures, and markets proprietary fire resistant building materials branded as Blazeguard®. Barrier's award-winning Blazeguard wood panels use a patented, non-toxic, non-combustible coating with an extraordinary capability: it releases water in the heat of fire. The panels exceed "model" building code requirements in every targeted fire test and application, and are unique in combining properties that increase panel strength and minimize environmental and human impact. Blazeguard provides Barrier's customers a premium material choice meeting an increasingly challenging combination of requirements in residential and commercial building construction. Blazeguard customers include already include many of the top multifamily homebuilders, and commercial modular building manufacturers, in the United States.
